

# Buchan & Gelantipy Times

**E-mentors Fiona Ross and Juanita Lyon at the launch of the Gippsland Learn and Connect Project at Buchan Neighbourhood House on March 5. The project aims to work in partnership with educational providers in Gippsland to develop an online blended delivery model offering training to smaller and often isolated Gippsland communities. Also launched was the 180 Degrees of Reflection: Networking Moderation in Gippsland Project; a reflection on the effectiveness of courses Learn Local organisations have purchased from the Adult Community and Further Education Board (ACFE) designed to provide learners with skills for further study or employment. Learn Local organisations are required to provide the ACFE board with evidence that demonstrates that the courses they deliver are of high quality. K147-263**
